COMPANY PRESENTATION

Experience

We are group of experienced people having unique knowledge on heat treatment field

SMART INTEGRATED SOLUTIONS FOR THERMICAL TREATMENTS

Innovation

We are always following latest technology and provide our customers with the most innovative solutions

Team

Team is one of the Values of our company. To develop Solutions we are always working in one team with our Customers and Suppliers

MEAPFORNI

OUR HISTORY

1984

FIRST FURNACE

We count our experience in the field of heat treatment from the first chamber furnace assembled

2015

MEAP FOUNDED

Due to important market movements Was decided to establish new brand oriented to innovations

2017

IMPORTANT STEP

We came back to Our Customers with new product and previous Customer care

2018

ITALSTART

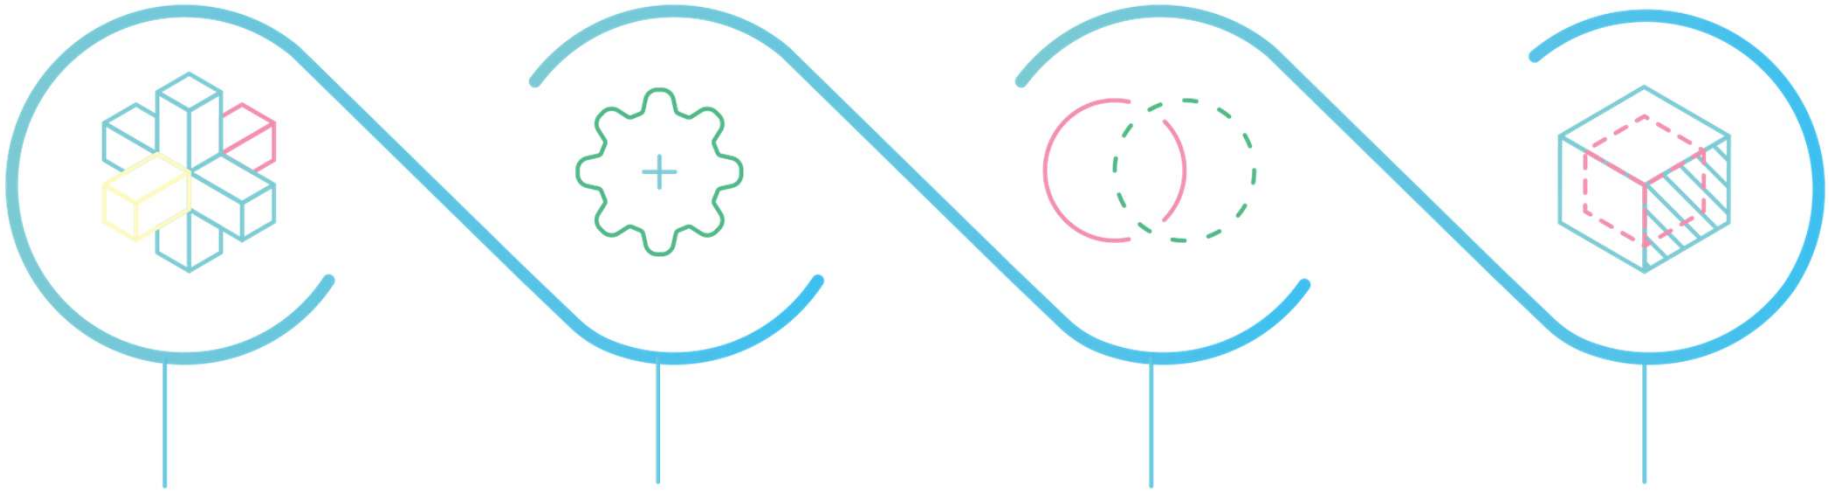
MEAP was acquired by group of investors well known in heat treatment field

2019

DOWA ALLIANCE

Worldwide positioning with Dowa Thermotech Ltd

OUR APPROACH



Connect

SHARE experiences with others innovating and evolving with industry
EXCITE teams about heat treatment and the opportunities
GAIN knowledge and insights from experts

Innovate

ACCELERATE the development of s marter products and processes
IMPROVE resource efficiency
EXPLORE new markets and opportunities

Act

ANALYSE technical task to create customer value
GENERATE new solutions on processes and equipment
INTEGRATE into systems with value chain partners

Grow

ACCESS skills and expertise to support business growth
ADAPT to remain competitive in a global industry
DEPLOY smarter tools to lower manufacturing costs

REMESPLUS INDUSTRY

MEAPFORNI

PRODUCT RANGE

ATMOSPHERIC FURNACES

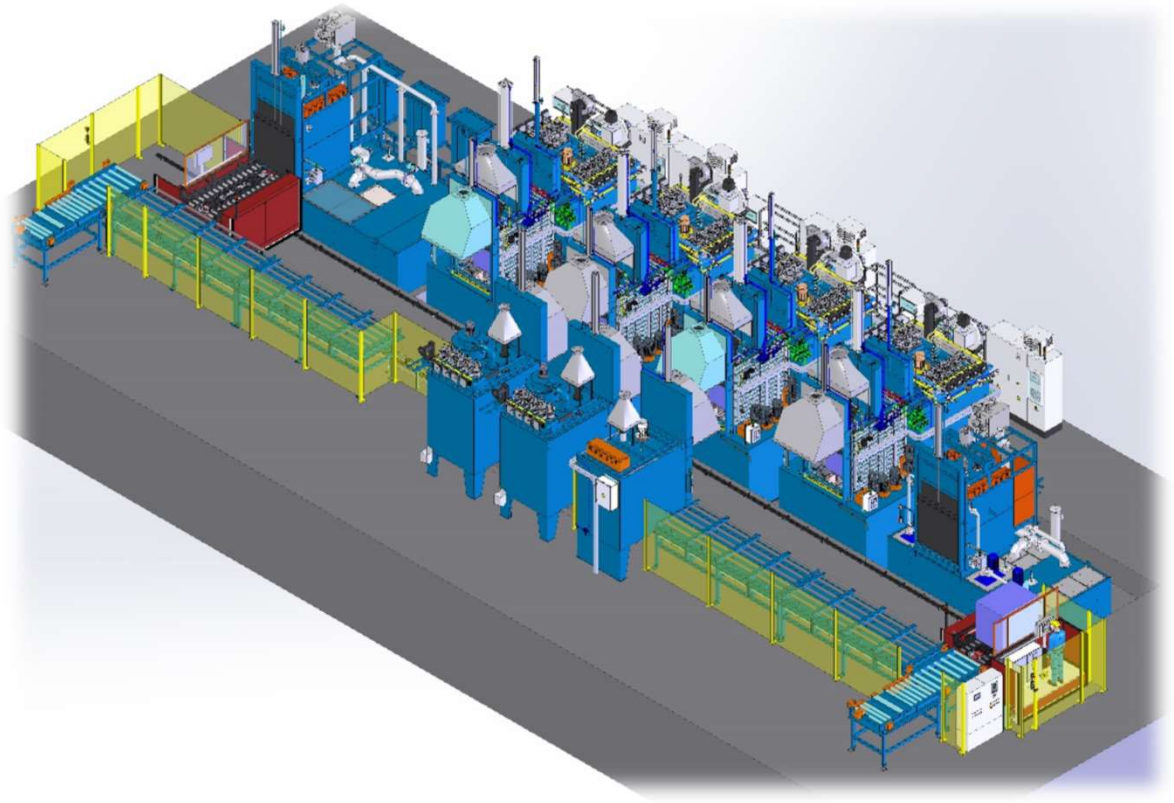
NON – ATMOSPHERIC FURNACES

SPECIAL SOLUTIONS

MEAPFORNI

SQF AUTOMATIC LINE

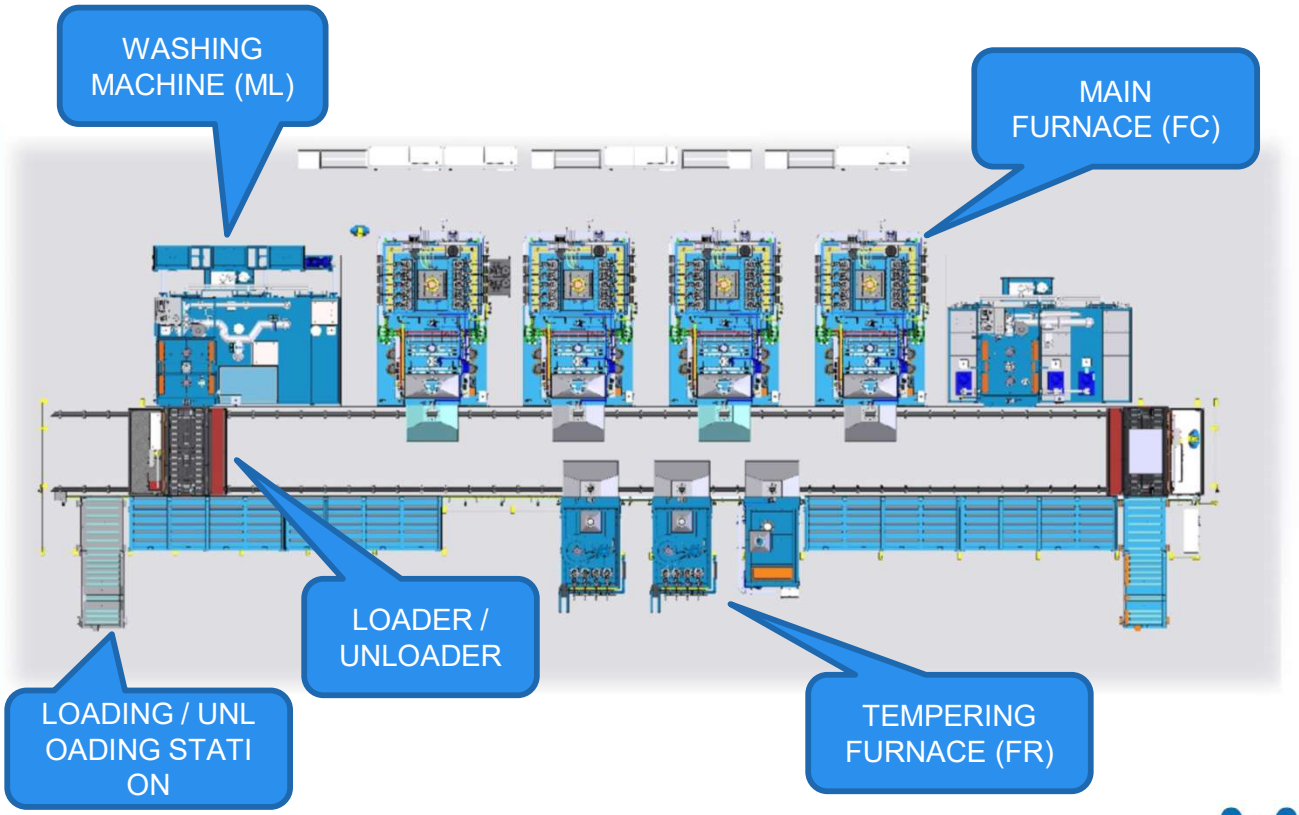
Automatic batch type (FC) furnace line by MEAPFORNI is commonly fulfill with all the required device and accessories to provide a safe and automatic management of the heat treatment process.



DESCRIPTION OF TIPYCAL AUTOMATIC LINE

A tipycal automatic batch type line is composed by:

- Main furnace for hardening and quenching (FC)
- Tempering furnace (FR) in the solution of 450°C and 750°C
- Washinig machine with accessories
- Loader / Unloader
- Stores and loading/unloading stations

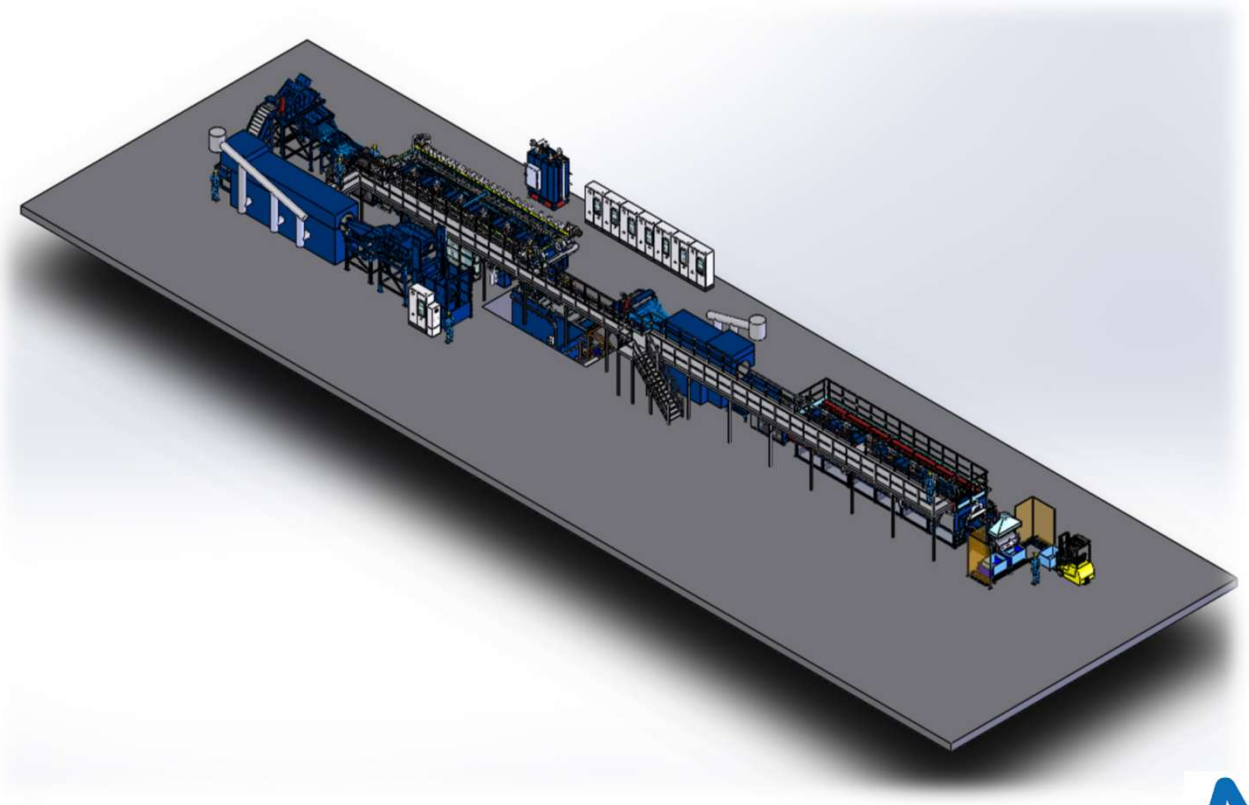


MEAPFORNI

MESH BELT LINES

Complete mesh belt lines for various ranges of productivity up to 1200 kg/h.

Gas or electrical heated, with all side equipment and control system for high quality heat treatment results



Fully automated belt lines CMBF

Oil, salt and polymeric quench

Automated loading systems

fully integrated washing and loading machines

MEAPFORNI

Fully automated belt lines CMBF

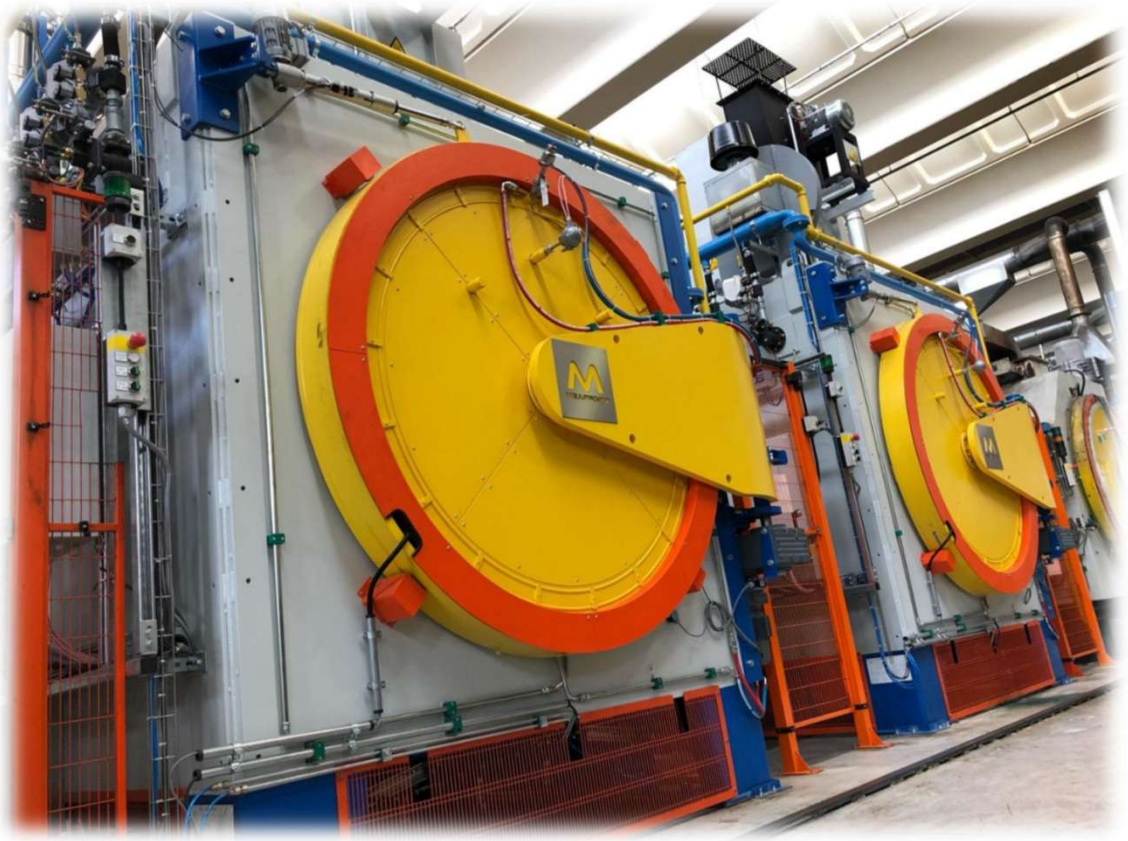
Mesh belt solutions

MEAPFORNI

NITRIDING FURNACE

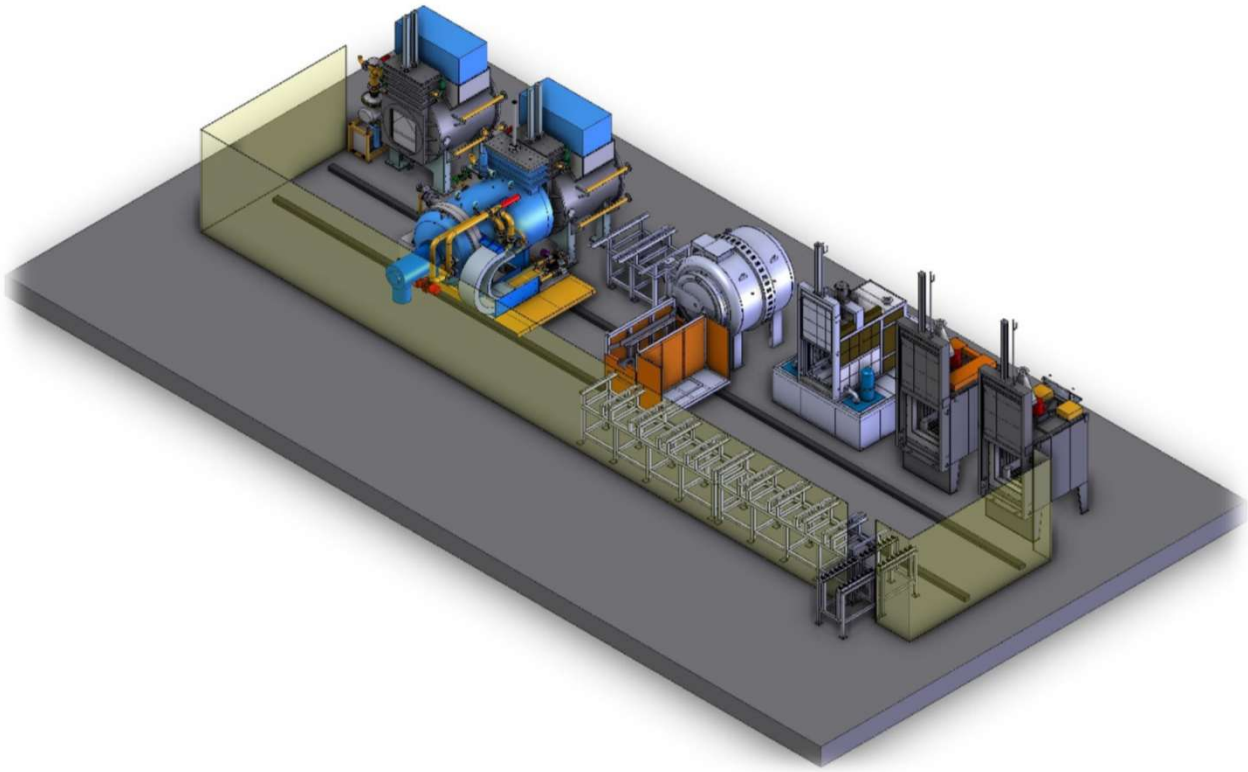
Traditional gas nitriding furnace, with retort and many options.

In the version with gas or electrical heating system



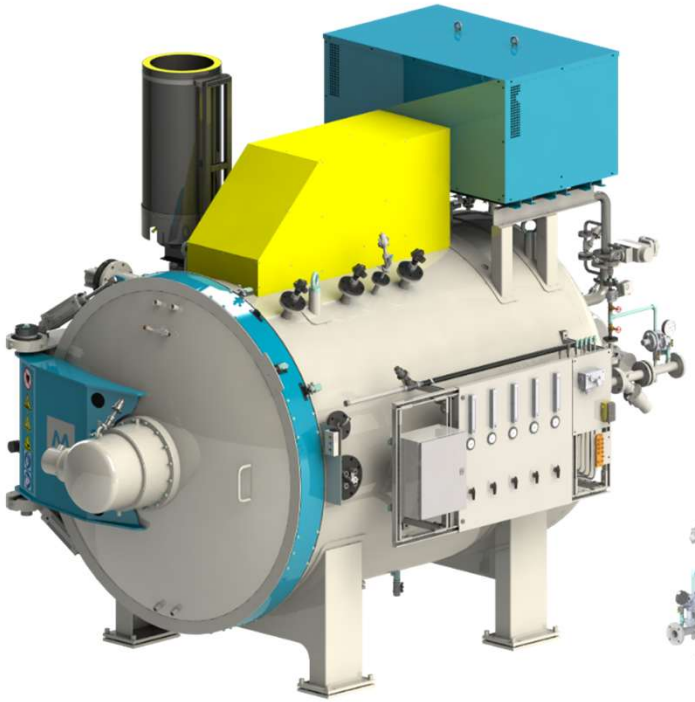
LOW PRESSURE CARBURIZING

Automatic Low-Pressure Carburizing line (CBP-Line) furnace line by MEAPFORNI is commonly fulfill with all the required device and accessories to provide a safe and automatic management of the heat treatment process.



LOW PRESSURE NITRIDING FURNACE

Low pressure nitriding furnace for this new cutting edge technology highly developed by MEAPFORNI.
With internal high speed cooling and after-burner system
LPN furnaces are extremely user friendly and reliable.



MEAPFORNI

VACUUM FURNACE

Vacuum hardening furnace
Vacuum tempering furnace
Annealing vacuum furnace

Quenching pressure up to 10 bar and high vacuum options.

SPECIAL FURNACE

Special furnaces and equipment according to customer needs.

Including washing machines
Endogas generators,
Oil recovery systems and
Salt recovery systems
